

1. What was your Study ID?

Instructions Text: Please recall the two charts you created for two separate songs: A and B (small playable excerpt of each song below). These charts were created using different AI partners with different methods of learning from you. Answer the questions below relating to them.

1. Which of the two **songs** did you prefer? (A or B)
2. Which of the two AI partners **learned** from you better? (A or B)
3. Which of the two AI partners was more **frustrating** to use? (A or B)
4. Which of the two AI partners made **higher quality** contributions to your charts? (A or B)
5. Overall, which of the AI partners did you **enjoy** working with most? (A or B)

Instructions Text: The following questions are regarding your experiences interacting with the different AI partners. Answer the questions with a short answer (1 - 2 sentences at most).

1. How did you use the AI partners throughout your creation process?
2. How did you feel about **partner A** (the AI partner used to create chart A)?
3. How did you feel about **partner B** (the AI partner used to create chart B)?

Instructions Text: The following questions address how you felt about the tool in general. Answer the questions with a short answer (1 - 2 sentences at most).

1. How did you feel about using the tool?
2. What would you change about the tool? Assume there is no limit to the possible changes.
3. Would you use this tool again, assuming it was usable with every song? Why or why not?

### Demographics Information

1. Gender (short answer)
2. Age

- a. 18 - 24
  - b. 25 - 30
  - c. 31 - 40
  - d. 41 - 50
  - e. 51 or older
